

Mills-Peninsula Hospital Replacement Burlingame, California

Client: Mills Peninsula Health Services
Burlingame, CA

Scope: 460,000 sq. ft. 232 Patient Beds Hospital
150,000 sq. ft. Medical Office Building

Budget: \$160 million Construction Cost Hospital
\$28 million Construction Cost MOB

Completion: 2008

This project will replace an existing Mills-Peninsula Hospital in its entirety and will consist of the 460,000 sq. ft. Hospital and adjacent 150,000 sq. ft. Medical Office Building.

The new hospital will include Emergency Department, Operating Suites, 24-hr Pharmacy, Acute Care, Critical Care, Family Birth Center, Skilled Nursing Facility, Behavioral Health, Diagnostic and Treatment Services, Administrative and General Services.

The hospital is served by 100% outside air HVAC system with heat recovery to maintain proper pressurization, cooling and indoor air quality.
