

Palo Alto Medical Foundation

Palo Alto, California

Client: Palo Alto Medical Foundation
Palo Alto, California

Scope: Buildings – 360,000 sq. ft.
Underground Parking – 350,000 sq. ft.

Budget: \$55 million Construction Cost

Completion: 1997-1998

The Palo Alto Medical Foundation Campus consists of several buildings linked together by two levels of underground parking. The facility accommodates clinical services, animal holding, research and administration, surgery center, an MRI and a linear accelerator. A future Wellness Center will be added to assure state-of-the art preventive health care delivery. The Campus design and palette is a reflection of the neighboring Stanford University.
